**"If agriculture goes wrong, nothing else will have a chance to go right."**

**– M. S. Swaminathan,**  
Agricultural scientist.

The early onset of monsoon this year raising the hope of a good crop soon became a growing concern for farmers largely. The erratic rainfall and shifting weather pattern raised the concern leaving farmers anxious. With a view to stand with the farmers in this crucial time entire focus of the sector shifted to underscore the necessity for detailed analysis and strategic agricultural planning to reshape the lives of all involved.

There is an utmost need to understand and enhance the farmer's skills towards climate resilience and adaptive strategies for improving agricultural productivity and sustainability.

The 18th Krishithon, Nashik wrapped up with its yet another success that stands as an epitome of innovation and progress in agriculture Industry, it received an overwhelming response from over 1 Lakh farmers and business visitors from Maharashtra, Andhra Pradesh, Karnataka, Gujarat & Madhya Pradesh during these

## The Grand Opening...

five days, it shows that the Spirit of the farmers is still high in the current situation, proves their spirit, dedication and enduring passion towards agriculture, despite the inherent difficulties of this profession.

With the legacy spanning over 27 years, Krishithon renowned as one of the premier event in the sector is supported by the Ministry of Agriculture & Farmers Welfare, Government of India. It attracts farmers and professionals from across India to experience the present practices and future prospects in Agriculture. Krishithon featured a leading exhibition spotlighting cutting-edge technologies, innovative Farming practices and sustainable solutions.

The 18th edition commenced with a grand ceremony marking the official inauguration of the event with the Member of Parliament Hon. Shri Rajabhau Waje, Hon. Shri Bhaskar Bhagre, Member of Parliament in presence of the distinguished guests- Project Manager ATMA Shri Ravindra Mane, Chairman Draksh Bagayatdar Sangh Shri Arun Mulane, Chandrakant Thakkar, Lokesh Shevde, Convener Shri Sanjay Nyaharkar and Sahil Nyaharkar who highlighted the growing concern of the agriculture in the state amidst the unpredictable climatic patterns and the vital need to understand at acclimatise to the situation.

## Setting new Standards...

### ■ Exhibition

With a view to offer something new at the exhibition, Krishithon offered interactive product demonstrations to create immersive experiences with new age products and its presentations. Connecting more than 300 brands with over 1 lakh visitors. This largest agriculture platform provides the most direct and efficient communication and trading opportunities between the companies and the farmers apart from the networking opportunities with the officials, decision makers from the government departments and the associations.

### ■ Demo Plots

Adding even more value to the experience, the 18th edition had a new addition as the Demo Plots, that aimed at offering and sharing field practical experience to farmers, which successfully triggered farmer's interest. These plots served as a visual tool for farmers to see the results of practices and application of new variety seeds, agro chemicals, pest management on different crop varieties, and irrigation & AI technologies on more than 40 vegetables and crops. The first ever well designed and organised live trial plots and technology showcase at Krishithon focused to help farmers influence their adoption of these products and innovations in their own fields.

## ■ Seminars & Workshops

The content reach breakout sessions focussed to gather insights and navigate into the challenges faced by the farmers. The programs are tailor made on emerging agricultural technologies, findings and overall management techniques, the expo guaranteed and delivered an incredibly rewarding and knowledge based event for farmers, visitors and participants alike.

Krishithon focussed on an enriching series of crop seminars and workshops on grapes Pomegranate and vegetables, based on the impact of climate change on the agriculture and essential skills to overcome the challenges.

Considering the revolutionary transformation of agriculture by the next-generation farmers, a series of panel discussion touched the important issues like digital agriculture - opportunities and its challenges, highlighting the Automation and AI driven analytics in agriculture to tackle the climate controlled farming with efficiency and sustainability –ensuring higher crop yields.

## ■ Awards & Recognition

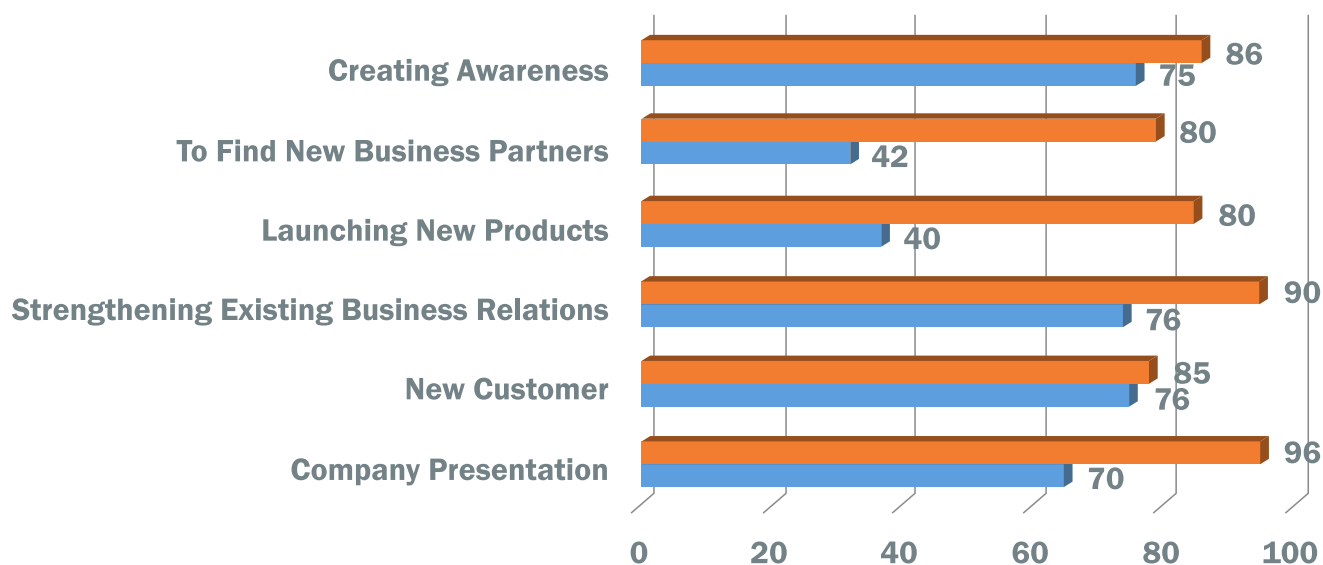

Krishithon recognised and awarded over 250 candidates in different category each with a specialisation in their fields, for their innovations and contributions in agriculture. Krishithon continues to be a catalyst for positive change in agriculture by recognizing the achievements and contributions in different categories as Young & Progressive Farmers, Agri Research & extension, Youth Agri Entrepreneurs, Women in Agriculture etc.
